

## COURSE INFORMATION

# Line Handling

### MAR10213 Certificate I in Maritime Operations (Line Handling)

This course runs over **6 days** and meets the minimum mandatory requirements about basic load handling (manual handling), communications (VHF radio), operational quality and safety (shore-based mooring) to prepare you for the environments you will encounter. These include safety procedures, hazard identification and emergency situations.

Over the duration of the course participants will complete various practical activities in a simulated work environment. Participants will need to be deemed competent in these activities and successfully complete a theory assessment before receiving certification.

#### **Certification**

On successful completion participants will receive the MAR10213 Certificate I in Maritime Operations (Line Handling) Qualification Certificate, which will include the below units of competency:

- ✚ MARC1001A Carry out shore-based mooring and untying operations
- ✚ MARE1001A Communicate during shore-based mooring and untying operations
- ✚ MARF003 Follow vessel security procedures
- ✚ MARF1004A Follow work health and safety, and emergency procedures during shore-based mooring operations
- ✚ BSBWOR301B Organise personal work priorities and development
- ✚ HLTAID003 Provide First Aid
- ✚ TLID1001A Shift materials safely using manual handling methods

#### **When and where is the course run?**

The Line Handling course is run upon request for a minimum of four students at AMI, located at 61 Quill Way, Henderson WA. Please contact reception if you would like to book a course.

#### **What will you need?**

- ✓ Lunch – there is a canteen within walking distance
- ✓ Enclosed footwear
- ✓ Passport photograph
- ✓ Writing materials (eg. pen, pencil) and paper
