

TBOSIET

Tropical Basic Offshore Safety Induction and Emergency Training

The TBOSIET course is a mandatory requirement for people wishing to work in the oil and gas industry, and is recognised in various regions around the world but is limited to warm water areas.

The course is aimed at people with little or no exposure to the industry.

The course runs for a period of 2 days and comprises of the following modules;

Safety Induction

This is a theory based session which covers the fundamentals required to enter the oil and gas industry and work/live with safety as your first priority.

Fire extinguisher training

A combined theory and practical sessions which provides students with an introduction to different classes of fires, different types of extinguishers and provides an interactive session where students will select the correct fire extinguisher and practice correct application techniques.

Smoke Escape

Following the theory session students will be required to navigate through a smoke filled and darkened compartment practicing effective self rescue techniques whilst wearing a smoke escape hood.

4 Helicopter underwater escape training (HUET)

Students will participate in a theory session where they will learn about helicopter travel, helicopter emergencies, and escape techniques. Following the theory is a practical session which has students practice escape techniques in a variety of different scenarios including; dry land, surface evacuation, vertical submersion and capsized submersion.

Sea Survival

This is a fun and interactive session where students will learn evacuation methods, and practice different techniques to ensure their survival if they ever have to abandon an oil rig or vessel.

Certification:

On successful completion of the course, students will receive a numbered photo ID card, OPITO certificate and registration onto the OPITO database and a Statement of Attainment MSAPMOHS212A Undertake first response to fire incidents, PMAOHS214B Undertake helicopter safety and escape

COURSE INFORMATION

TBOSIET

Validity:

The TBOSIET is valid for 4 years; however, different companies may require employees to renew their training at more frequent intervals. To keep the ticket valid employees must return within the 4 year period and conduct a 1 day refresher course (FOET or TFOET).

What will you need?

- ✓ A valid Medical (refer to accepted medicals)
- ✓ Lunch – there is a lunch bar within walking distance
- ✓ Bathers and towel
- ✓ Enclosed footwear and neat casual dress
- ✓ Passport photograph

Medical Terms & Conditions:

Students undertaking training are required to submit to a medical examination. There are two options available:

- **Option 1 – Accepted Medicals:**

Provide a Current medical from:

- Medicals aligned to the UKOOA/OGUK guidelines.
- Aviation Authority Medicals (e.g. CASA, CAA).
- Maritime Authority/Directorate Medicals (e.g. AMSA).
- Commercial/Occupational dive medicals (e.g. AS/NZS 2299, UK HSE)

- **Option 2 – Undertake a new medical**

Students have the AMI Medical form signed off by a General Practitioner. This can incur a fee, depending on the practise. This needs to be completed prior to participating in training.

When and where is the course run?

Please contact reception to find out availability. All courses are run onsite at Australasian Maritime Institute, 61 Quill Way Henderson WA.
